

ADNAN KHAN

Sr. Director of Engineering · DevSecOps · Platform Engineering · Agentic AI

adnan@adnankhan.me Cell: 714-381-8975 Dallas, TX · [linkedin.com/in/passionateforinnovation](https://www.linkedin.com/in/passionateforinnovation) · US Patent #7,924,881 · <https://adnankhan.me/>

PROFESSIONAL SUMMARY

Hands-on engineering leader with 15+ years building high-performance DevOps platforms and, most recently, production Agentic AI systems. Recruited by a startup CEO to build an AI engineering practice from zero — shipped a production multi-skill AI agent for Terraform automation, achieving 3-5x performance improvement over ChatGPT and Claude on the same tasks. Rare combination of deep developer roots, DevOps/IaC expertise, and AI systems leadership. Co-founded SalesIntel as CTO, architecting and building a SaaS platform from scratch. MBA from UC Irvine · US Patent holder · Built and led teams from 2 to 15+ engineers.

EXPERIENCE

Sr. Director of AI Engineering · DuploCloud Nov 2025 – Present | Remote

Recruited directly by the CEO to build the Agentic AI practice from zero

- ▶ Designed and shipped a production multi-skill Agentic AI platform in Python: engineers submit Terraform tasks via UI → async queue (NATS JetStream) → 11 specialized orchestrated skills → validated GitHub PR, end-to-end in under 10 minutes.
- ▶ **3-5x faster** Benchmarked against ChatGPT and Claude on identical Terraform tasks —
- ▶ Platform architecture: stateful Kubernetes containers with PVC/EFS persistence, NATS/SSE real-time event streaming, configurable timeouts with graceful cleanup, unique task IDs — designed to be cloud-agnostic (AWS/GCP/Azure) and extensible to multiple agents.
- ▶ Optimized LLM performance through prompt caching, minimizing model turns, smart repo context compression, and skill specialization — each of 11 skills tightly scoped for one job.
- ▶ Introduced AI-powered UI workflows that reduced engineering task turnaround across the org.

Director of DevOps · Fabletics Feb 2020 – Nov 2025 | Dallas, TX

Promoted Sr. DevOps Manager → Director DevOps over 5+ years

- ▶ Built the DevOps team from 2 to 10+ engineers — supporting 4 distinct brands (Fabletics, FabKids, Savage X Fenty, TechStyle), each operating with its own stack and release cadence.
- ▶ **1,000+ deployments/day** Architected hybrid on-prem + AWS CI/CD platform from scratch —
- ▶ Led effort to migrate **1000+ Jenkins jobs to Github actions** with shared pipeline architecture
- ▶ Architected and implemented **AWS Landing Zone architecture** to provide a secure, well-architected, multi-account foundation that accelerates cloud adoption, ensures consistent governance, and improves operational efficiency
- ▶ Led full Kubernetes platform buildout and containerization across all 4 brands — standardizing infrastructure across what effectively operated as 4 separate engineering organizations.
- ▶ Unique advantage: developer background enabled fluent collaboration between engineering and DevOps — architect systems developers actually wanted to use.

Engineering Manager, DevOps · cxLoyalty Jan 2019 – Feb 2020 | Plano, TX

- ▶ **40 minutes → one click · adopted as company gold standard** Solely designed and built end-to-end CI/CD system (Jenkins, Helm, Nginx Ingress, EKS) — reduced deployment time
- ▶ **\$1M+ annual cloud savings** · Drove \$1M+ in annual cloud cost savings through AWS optimization — rightsizing, reserved instances, and architectural changes without impacting reliability.
- ▶ Built shared pipeline library integrated with 30+ Spring Boot microservices — keeping all CI/CD code DRY.
- ▶ Implemented Service Mesh (Istio), PCI compliance scanning (OWASP/Aqua), and secure Terraform/Terragrunt IaC. Directed team of 6 engineers.
- ▶ Designed enterprise-grade IaC with Terraform/Terragrunt — versioned, modular, reusable across all product teams, eliminating config drift.
- ▶ Established DevSecOps standards org-wide — OWASP scanning, Aqua container security, compliance automation in every pipeline.

Director, Hybrid Cloud & DevOps · GDT – General Datatech May 2018 – Dec 2018 | Dallas, TX

- ▶ **\$350K+ revenue in first 6 months** Turned DevOps group from cost center to revenue generator —
- ▶ Evangelized cloud/DevOps services to 100+ hardware sales managers across 400+ existing customers. Hired company's first DevOps sales manager.

Senior Operations Manager, DevOps & NOC · Comtech Telecommunications Oct 2014 – Jan 2018 | Orange County, CA

- ▶ **99.999% SLA for Verizon, Amazon, Sprint** Led 22-person DevOps and NOC organization — delivering
- ▶ Drove CI/CD transformation from siloed manual deployments to self-service pipelines for dev and QA teams.
- ▶ Managed 7 server-side engineers (US + China) powering Verizon Navigator, Amazon Fire navigation, and Verizon Family Locator apps.

Co-Founder & CTO · SalesIntel, Inc. Jun 2014 – Mar 2015 | Orange County, CA

- ▶ Co-founded and served as CTO — architected and built a SaaS social networking platform for sales professionals from scratch: multi-tenant, cloud-native, Agile/Scrum.
- ▶ Designed and implemented full-stack platform using PHP/Slim, PostgreSQL, RESTful APIs, Lucene/Solr search, and AWS (S3, SQS) — with 2 million dynamically generated SEO pages driving organic traffic.

Sr. Software Engineering Manager · Smith Micro Software Jan 2008 – May 2014 | Orange County, CA

- ▶ Built and led distributed team of 14+ engineers across US, Canada, Serbia, Korea, China — delivering wireless communication software for Verizon and major OEMs (Samsung, LG, Motorola, HTC).
- ▶ Worked directly with Intel and Google on mobile communication software for Chrome OS.

Earlier: Sr. Software Manager, Zetara Corporation (2005–2007) — Conceived and implemented solution to UDP data corruption in IP networking · US Patent #7,924,881

CORE SKILLS

AI & Agents Agentic AI · LLM Engineering · Prompt Engineering · Prompt Caching · Claude (Bedrock) · Python

DevOps & IaC Terraform · Terragrunt · Kubernetes · Helm · CI/CD · Jenkins · GitHub Actions · Docker

Cloud & Infra AWS · Hybrid Cloud · EKS · EFS · NATS JetStream · SSE · DevSecOps · OWASP · SRE

Leadership Team building (2→15+) · 0→1 platform builds · Cross-functional leadership · Hiring & mentoring

EDUCATION

MBA, Finance & Strategic Innovation · **Grade: A+** 2011 – 2013

University of California, Irvine — Paul Merage School of Business · Alpha Beta Gamma Award

Master of Computer Science

University of Karachi
